8	BACHELOR OF COMPUTER APPLICATIONS	10
9	BSC COMPUTER SCIENCE	11
10	BA ISLAMIC STUDIES	12
11	MA ARABIC	13
12	MA ISLAMIC STUDIES	14

B. Sc. MICRO BIOLOGY

Programme Outcomes
PO1 Acquire knowledge about the fundamental principles and scientific theories related to various scientific phenomena in day-to-day life. PO2 Develop communication skills and get expertise in scientific writing. PO3 Acquire the skills in handling scientific instruments, planning and performing in laboratory experiments. PO4 Equip them with the skills to think creatively and draw logical inferences from the scientific experiments to draw the objective conclusions or provide new solutions to the problems. PO5 Capability making to work effectively in diverse teams in both classroom, laboratory and in industry and field-based situations. PO6 Impart awareness of the impact of science on the environment and society.
Programme Specific outcomes
PSO1 Gain integrated knowledge on different aspects of microbiology, 7 biochemistry, biostatistics, and computer applications bioinformatics and emerging world wide microbiological technologies, issues, and perspectives. PSO2 Acquire skills specific to microbiology and allied fields for converting information to knowledge through hypothesis, design, execution, and analysis. PSO3 Analysis of scientific issues across the spectrum of related disciplines. PSO4 Enable the students to improve the quality of human lives in relation to the environment with the knowledge in microbiology. PSO5 Capacity to develop, employ and integrate technical and professional skills as a member of a team upholding the essence of collaboration, cooperation, ethics, and integrity

B.Sc. GEOGRAPHY

Programme Outcomes
PO1 Able to think in spatial terms to explain what has occurred in the past using geographic principles to understand the present and plan. PO2 Understand the various theoretical and methodological approaches in both physical and human geography. PO3 Understand the factors influencing the distribution and mobility of human population.
Programme Specific outcomes
PSO1 Understanding the functioning of global economies, geopolitics, global geostatic views and functioning of political systems. PSO2 Correlate the knowledge of Physical Geography with the Human Geography. PSO3 Get awareness about the hazards and disasters to which the subcontinent is vulnerable and their management

B.Sc. FOOD TECHNOLOGY

Programme Outcomes
PO1 The basic knowledge of food science and technology PO2 Structure and composition of different types of foods. PO3 Understand develop skills in microbiological laboratory techniques. PO4 Basics of quality assessment, nutritional factors and health foods. PO5 Equip the students as a qualified food technologists for Food industries, research organization and teaching. PO6 Acquire the students with a solid foundation in basic sciences related to food technology, food science and food technology & engineering. PO7 Covey and enable the students with good scientific and engineering knowledge so as to comprehend, design, and create food products and device for food industry and provide solutions for the challenges in food industry as well as in agriculture. PO8 Train and boost up the students in professional and ethical attitude, effective communication skills, teamwork skills and multidisciplinary approaches related to food technology and engineering. PO9 Acquire the student with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the life-long learning needed for a successful professional career
Programme Specific outcomes
PSO1 They will demonstrate knowledge of Food Chemistry, Food Microbiology, Food scienceand Food engineering. PSO2 They will demonstrate an ability to identify, formulate and solve processing problemsrelated to food sector/industry PSO3 They will get exposure to various technologies aspect of Food product preparation PSO4 They will demonstrate an ability to design or process food products as per the needs andspecifications. PSO5 They will demonstrate an ability to work in Food industries, research organization andteaching. PSO6 They will demonstrate skills to use modern tools and equipment to analyse food proneinfection and food spoilage. PSO7 They will demonstrate knowledge of professional and ethical responsibilities. PSO8 They will be able to understand economic importance of food products and food laws. PSO9 They will show the understanding of impact of technological solutions on the society and will be aware of contemporary issues and develop confidence for self-education and abilityfor life-long learning.

B. Sc. PSYCHOLOGY

Programme Outcomes
PO1 The course structure is designed to enable students to think critically and creatively investigate how human beings interact with the environment through the modalities of mind, body, and behaviour. PO2 On completion of this programme the successful student will have knowledge and understanding of PO3 The main theoretical approaches to psychology PO4 The fundamentals of psychological research design and analysis PO5 Knowledge and understanding of biological psychology PO6 Knowledge and understanding of developmental psychology PO7 Knowledge and understanding of cognitive psychology, including the areas of perception, learning, memory, language and thinking. PO8 Detailed knowledge and findings of and debates in social psychology. PO9 Understanding of the individual differences in psychology.
Programme Specific outcomes
PSO1 Students of Psychology to grow in sensitivity, sympathy, and empathy towards others, learn to work in a team and develop leadership qualities, accept, and respect individual differences and work with responsibility and commitment. PSO2 Develop an understanding about inclusive education and its benefits through the Social Outreach Program. PSO3 Students are encouraged to conduct short empirical and archival researches so that they develop an understanding about application of statistics and research methodologies. PSO4 They are trained to present papers in national level seminars and to get the research papers published in reputed journals. PSO6 Students gather exhaustive knowledge in different areas pertaining to psychology like self-love and social networking, different modes of psychotherapy through different seminars and workshops hosted by the department.

BACHELOR OF COMMERCE

Programme Outcomes
PO1 Students have choices to pursue professional courses such as CA, M.COM, MBA, CMA, ICWA, CS, etc. PO2 Students can play roles of businessmen, entrepreneur, managers, consultant, which will help PO3 learners to possess knowledge and other soft skills and to react aptly when confronted with critical decision making. PO4 Improve their computer literacy through understanding of the Office Automation System. PO5 Students will learn relevant Advanced accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business. PO6 Help the students in evolving and applying finance and computer application concepts to accounting. PO7 Students can also get the practical skills to work as accountant, audit assistant, tax consultant, and computer operator as well as other financial supporting services.
Programme Specific outcomes
PSO1 To make the students efficient in office automation with computers and computer software applications PSO2 To facilitate the students to join professional courses PSO3 To develop subject skill within various discipline of commerce, business, accounting, economics, finance, auditing and marketing with soft skills in Tally, ERP, E-commerce. Also helps to acquire entrepreneurship.

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

Programme Outcomes
PO1 To understand business functions. PO2 To provide global perspectives. PO3 To develop critical and analytical thinking abilities. PO4 To develop interpersonal things. PO5 To create social sensitivity and understand CSR, Ethical and sustainable business practices. PO6 To demonstrate sensitivity to social, ethical and sustainability issues. PO7 To develop entrepreneurship acumen.
Programme Specific outcomes
PSO1 The Bachelor of Business Administration in Finance degree programme provides future finance professionals with an in-depth understanding of how Financial Management, Investment Management, and Income Tax are handled. PSO2 The knowledge imparted in this programme will make the professionals understand the basic concept of Working Capital Management, corporate law and India Financial System.

B.A. ENGLISH

Programme Outcomes
PO1 Enhance the ability of critical thinking and analysis. PO2 Cultivates language skills through a wide variety of literary works PO3 Boosts fourfold skills like speaking, listening, reading, and writing. PO4 Enshrine with different literary periods and trends of each period PO5 Mingles with different concepts like conservation, marginalization, language skills etc.
Programme Specific outcomes
PSO1 Get a taste for reading works with theoretical basis PSO2 Capable of interpreting and exploring relationships from the point of view of different people. PSO3 Approach and appreciate Indian literature in English and explore its uniqueness and its place among the literature in English. PSO4 Develop sensible responses to great classics in translation and find tune analytical skills with a view to achieving a broad, wholesome vision of life. PSO5 Critically interact with works from different contexts: social, political, economic, historical and national as subject conscious based on their experience.

BACHELOR OF COMPUTER APPLICATION (B.C.A)

Programme Outcomes
PO1To attract young minds to the potentially rich and employable field of computer applications. PO2To be a foundation graduate Programme this will act as a feeder course for higher studies around Computer Science/Applications. PO3To develop skills in software development to enable the BCA graduates to take up self-employment in the Indian and global software market. PO4To train and equip the students to meet the requirements of the Software industry in the country and outside.
Programme Specific outcomes
PSO1Develop language proficiency to handle corporate communication demands. PSO2Preparing students in various disciplines of technologies such as computer applications, computer networking, software engineering, JAVA, database concepts and programming. PSO3In order to enhance programming skills of the young IT professionals, the concept of project development in using the technologies learnt during the semester has been introduced. PSO4To enhance logical ability and programming concepts by implementing a programming lab. PSO5Preparing students for future aspects by building and improving their creativity, social awareness, and general knowledge. PSO6Encouraging students to convert their start-up idea to reality by implementing. PSO7Ability to understand the changes or future trends in the field of computer application. PSO8Ability to identify, formulate, analyze and solve problems of programming using different languages.

B.Sc. COMPUTER SCIENCE

Programme Outcomes
PO1 To attract young minds to the potentially rich and employable field of computer science. PO2 To be a foundation graduate Programme this will act as a feeder course for higher studies around Computer Science/Applications. PO3 To develop skills in software development to enable the BSc CS graduates to take up self-employment in the Indian and global software market. PO4 To train and equip the students to meet the requirements of the Software industry in the country and outside.
Programme Specific outcomes
PSO1 Develop language proficiency to handle corporate communication demands. PSO2 Preparing students in various disciplines of technologies such as computer applications, computer networking, software engineering, JAVA, database concepts and programming. PSO3 To enhance programming skills of the young IT professionals, the concept of project development in using the technologies learnt during the semester has been introduced. PSO4 To enhance logical ability and programming concepts by implementing a programming lab. PSO5 Preparing students for future aspects by building and improving their creativity, social awareness, and general knowledge. PSO6 Encouraging students to convert their start-up idea to reality by implementing. PSO7 Ability to understand the changes or future trends in the field of computer science. PSO8 Ability to identify, formulate, analyse and solve problems of programming using different languages.

BA ISLAMIC STUDIES

Programme Outcomes

PO1 Demonstrate a profound understanding of knowledge trends and their impact on the chosen discipline of study.

PO2 Become a team player who drives positive change through effective communication, collaborative acumen, transformative leadership, and a dedication to inclusivity.

PO3 Demonstrate professional skills to navigate diverse career paths with confidence and adaptability.

PO4 Emerge as an innovative problem-solver and impactful mediator, applying scientific understanding and critical thinking to address challenges and advance sustainable solutions.

PO5 Human Values, Professional Ethics, and Societal and Environmental Responsibility: Become a responsible leader, characterized by an unwavering commitment to human values, ethical conduct, and a fervent dedication to the well-being of society and the environment

PROGRAMME SPECIFIC OUTCOMES

PSO1 Understand the art forms of Islam and thus familiarize the cultural and social dimensions of Islam, including the diversity of Muslim societies, customs, and practices across different regions and time periods.

PSO2 Engage with ethical questions and dilemmas within the context of Islamic teachings, demonstrating an understanding of moral values and ethical principles derived from Islamic sources.

PSO3 Develop the ability to critically evaluate data related to Islamic studies, analyze complex issues within Islamic thought and practice, and construct well-reasoned arguments based on evidence.

PSO4 Cultivate an appreciation for religious diversity and develop the skills necessary for constructive dialogue and engagement with people of other faiths or worldviews.

PSO5 Demonstrate proficiency in conducting independent research, synthesizing

MA ISLAMIC FINANCE

Programme Outcomes
PO1 To apply the knowledge about various regulatory institutions and development financial institutions in real life situations PO2 To develop a strong foundation in the fundamentals of finance. PO3 To help students to achieve proficiency in different areas of business, economics, accounting, commerce, finance, , environment management, communication and modern technology. PO4 To make them able to do higher education and advance research in the field of finance. PO5 To make the ability to engage in an independent and lifelong learning in the context of ever-changing business trends and ideas.
Programme Specific outcomes
PSO1 To apply an effective tool for financing development worldwide, including in non-Muslim countries. Major financial markets are discovering solid evidence that Islamic finance PSO2 To develop a equity-based, asset-backed, ethical, sustainable, environmentally- and socially responsible finance. PSO3 To get knowledge to promotes risk sharing, connects the financial sector with the real economy, and emphasizes financial inclusion and social welfare. PSO4 It also aims to familiarize the concept and principles of Islamic Finance and equip the students to deal with the practice of Islamic finance operations.

M.A. ARABIC

Programme Outcomes
PO1 To demonstrate mastery of the Arabic Language by detailing the development and current practices of literary and linguistics studies, rhetoric, grammar, translation, and history of the literature. PO2 To train students to fulfil the challenging education and research needs in the field of Arabic language and literature and nurture culturally active researchers and scholars in the fields of literature, language, and criticism. PO3 To develop a research personality capable of exploration, creativity, and reasoning. PO4 To train students to fulfil the challenging education and research needs in the field of Arabic language and literature.
Programme Specific outcomes
PSO1 To enable the students to work in different literary, diplomatic, media, journalism, and other professional fields PSO2 To develop and upgrade the communicative skills and proficiency of students keeping focus on literary and political translation. PSO3 To keep pace with modern knowledge, approaches, and theories in the fields of language and literature.
